About The Expo

The Saudi International Exhibition for Disability and Rehabilitation Requirements (Rehab Expo) is one of the leading exhibitions witnessing a qualitative shift in innovation and development within the rehabilitation sector. The exhibition brings together innovators and companies seeking to explore a prosperous future in the field of rehabilitative care.

This prominent event in the Kingdom of Saudi Arabia is organized by 1st Arabia for Exhibitions and Conferences, serving as a key platform for showcasing the latest innovations and solutions in the rehabilitation of persons with disabilities. The event brings together government bodies, local and international companies, and institutions to present products and services aimed at improving the quality of life of this community.

The Saudi International Rehab Expo also offers opportunities for communication among experts and specialists, while enhancing knowledge exchange and international cooperation in the fields of care and rehabilitation. This is achieved by supporting persons with disabilities and their families, raising awareness of their needs, and empowering them to integrate into society.

Our mission is to improve the quality of life of persons with disabilities who require rehabilitation services by providing a platform that enables the presentation of advanced technologies and integrated care solutions. We aspire to foster an environment where collaboration, education, and innovation flourish to deliver the best solutions for this community.

International Day of Persons with Disabilities Ceremony at Rehab Expo 2026

The International Day of Persons with Disabilities (IDPD) ceremony in the Kingdom of Saudi Arabia is an annual event that aims to promote community awareness regarding the rights of persons with disabilities, and to support their active participation in various aspects of life. This is achieved by highlighting initiatives, services, and solutions that contribute to their empowerment and improve their quality of life. The ceremony also reflects the Kingdom's commitment, within the framework of Saudi Vision 2030, to promote the principles of inclusivity and equal opportunity, and to empower persons with disabilities as active partners in the development journey.

The Saudi International Exhibition for Disability & Rehabilitation Requirements 2026 is organized in conjunction with this occasion, reinforcing the importance of raising community awareness on disability issues, and showcasing the latest supportive solutions, services, and technologies that contribute to empowering persons with disabilities and raising their quality of life.

This synergy between the ceremony and the exhibition reflects a strategic integration that enhances its role as a key partner in development. It contributes to developing an integrated system for the disability and rehabilitation sector according to the best international standards, thereby cementing its position as a leading platform that combines knowledge, innovation, and strategic partnerships, and achieves a sustainable impact that supports the future of the sector in the Kingdom and the region.

The Mission

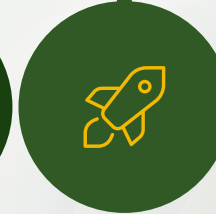

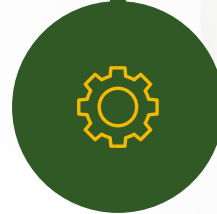

Our mission is to foster an environment where cutting-edge technology meets compassionate care. We aim to facilitate the exchange of knowledge, present groundbreaking products, and spark collaborations that drive the future of rehabilitation and assistive technology. We are dedicated to promoting inclusivity and improving quality of life through innovation and effective solutions.

The Objectives

The exhibition's vision is to achieve a comprehensive approach to expanding the concept of rehabilitation and assistive technologies across the Middle East and the world. The goal is to create a world of cutting-edge innovations and inclusive solutions that empower people with disabilities of all abilities to live independent lives and meet their needs.
